

Errands consume a
substantial percentage of
our free time

Research shows that Americans
spend approximately 90% of
waking hours doing some type of
work activity, which doesn't leave
much free time.

And, the minimal amount of free
time we do have, we spend
running errands, instead of doing
the things that we'd rather be
doing!

If so, **Consider It Done** can lessen
your worries, reduce stress and
free up your valuable time for
spending with family and friends,
traveling, and enjoying life and
leisure activities you should be
doing!

into your daily schedule"***

What is a Teacher?

A teacher is someone who sees each child as a unique person and encourages individual talents and strengths.

A teacher looks beyond each child's face and sees inside their souls.

A teacher is someone with a special touch and a ready smile, who takes the time to listen to both sides and always tries to be fair.

A teacher has a caring heart that respects and understands.

A teacher is someone who can look past disruption and rebellion and recognize hurt and pain. A teacher teaches the entire child, and helps build confidence and self-esteem.

A teacher makes a difference in each child's life, and affects each family and the future of us all.

Why

Teachers are one of the most valuable and influential people in our child's lives. Overworked and underpaid in one of the most dedicated professions there is.

Not only do you have your students to think about, but at the end of the day, your "normal" household responsibilities as well.

I designed this program to help teachers have quality family time without all the extra "tasks" after work.
